

Sevenhook is made of 2 mm acid-resistant stainless steel wire. Suitable for hanging lights on solid materials such as concrete and solid brick. The sevenhook is punched into the pre-drilled hole, allowing the ends of the wire to stick to the wall of the hole. The short and stiff ends of the thread take a firm and firm grip. Working load (tensile load) in concrete K25 1.0 kN, in solid bricks 0.5 kN.

TEKNISET TIEDOT

Tuotekoodi	20105015
Length	50mm
Installation depth	30mm

Porareijän halkaisija	8mm
Vetokuormitus	Betonissa K25 1,0 kN, umpitiilessä 0,5 kN
