BAU BAT EMERGENCY POWER SUPPLY FOR LED STRIP

Tuotekortti · 6000847

With BAU BAT battery backup, you turn the BAU LED 2 LED lighting into battery-backed emergency lighting. With battery operation, the lighting power drops by 70%, however, providing enough light for safe movement during a power failure. Battery backup is well suited for exit lighting.

PÄÄOMINAISUUDET

- The BAU BAT battery backup has a socket and a plug and is connected between the BAU LED 2 LED strip connection cable and power socket. One battery can be connected to a max. 60m of LED strip.
