

BET –heating cable elements are intended for the curing and drying of concrete. Prevents the freezing of concrete and speeds up the drying process. The heating cable, which is fixed to the reinforcement, can be reconnected at a later stage for effective drying or heating, unless input cables are cut off.

PÄÄOMINAISUUDET

- Concrete hardening cables should only be installed against non-combustible structures in accordance with electrical safety regulations. The cable has a 2m plug with a plug.
