

## **FROST THAWING MAT 1000W**

The light and efficient frost thawing mat is made of durable PVC fabric and effective cellular rubber insulation. The mat withstands heavy wear and provides powerful frost thawing. The long-lasting heating mat is equipped with overtemperature protection and a thermostat, making it safe and easy to use. The mat is equipped with a 2 m fixed connection cable with a plug. Lockable lashing straps hold the carpet firmly on a roll during transport and storage. Sail rings at the edges of the rug make it easier to secure the rug in place. Excellent for heating/thawing use for example:

- soil and sand
- masonry work
- protection and hardening of concrete castings
- water and sewer pipes
- cable reels
- burial sites
- implements and oil tanks
- hay and fodder bales
