

The 8.5m light mast, is easy to move and handle. Its well suited for both construction sites and outdoor events. The traffic trailer facilitates transport between construction sites. Forklift pockets and lifting hooks (5 pcs.) Enable the mast to be moved with a crane and forklift.

PÄÄOMINAISUUDET

- The mast has a choice of 240W or 120W LED floodlights, of which a total of 4 will be placed on the mast. Each luminaire has its own switch. The mast stepless winch works with a friction brake. The telescopic mast is made of galvanized steel and the strong frame is powder coated. The mast's 5 stabilizers will keep it upright even in high winds (max. wind resistance 110Km/h). Power supply with the mast's own generator.

TEKNISET TIEDOT

Tuotekoodi	60009996/DSE_FAST	**Fuel consumption**	0,55l/h (75%)
Length opened	2,3 – 8,5m	**Running time**	145h
Lighting area	3000m2	**Starter battery**	12V/18Ah
Outlets	1 x 230V max 2kVa	**Dimensions closed**	239x138x264cm
Engine	Kubota Z482 Diesel	**Dimensions open**	239x237x850cm
Fuel tank	80 l	**Dry weight**	690kg
