

# TEMPORARY POWER SUPPLY CABINET WITH METER 250 A “LITTLE BROTHER”

Tuotekortti · 19005047

A small and affordable cabinet that is also suitable for tighter spaces. The doors are only on one side of the cabinet i.e. the input and outputs are on the same side of the cabinet. Thanks to the modular design, the cable outputs can be modified according to needs. There are 5 module slots, of which 4 slots are free as standard. The powder-coated and corrosion-resistant aluminum frame has lifting eyes and forklift pockets.

## TEKNISET TIEDOT
