

LIGHT MAST 5,5M WITH GENERATOR

Compact generator light mast with integrated electrical system and vertical telescopic mast with manual lifting. The light mast is equipped with four 150W LED floodlights made in Europe and a Yanmar engine.

To increase operating efficiency, the light mast has a DSE3110 automatic control system with an integrated light sensor. The machine can thus operate automatically, which guarantees up to 40 hours of working time. The machine has air cooling system.

SKU: 60009993

TECHNICAL ATTRIBUTES
